Jelly

The Little Seed

LITTLE READERS

Mia has a small seed.
Mom gives her a pot.

Mia makes a hole.
She puts the seed in.

She covers it with soil.
Mom adds some water.

They put it by the window.
The sun shines on it.

Mia looks the next day.
She sees brown soil.

Mia wants to dig.
Mom asks her to wait.

The seed needs time.
Mia draws her seed.

She checks the soil.
Mom helps her water it.

The pot looks the same.
Mia waits some more.

A green tip comes up.
It grows out of the soil.

Mia calls Mom over.
They see the new plant.

Two leaves open up.
Mia draws the leaves.

She looks at her pictures.
The plant looks different now.

Her plant is still small.
It needs water and light.

Mia turns the pot.
The leaves have room.

The roots are down below.
Her little plant is growing.

The End

Thank you for reading.
